General Safety Instructions

Safety First: The primary concern of Midmark Corporation is that this dental casework is maintained with the safety of the patient and staff in mind. To assure that services and repairs are completed safely and correctly, proceed as follows:

(1) Read this entire manual before performing any services or repairs on this casework.

(2) Be sure you understand the instructions contained in this manual before attempting to service or repair this casework.

Safety Alert Symbols

Throughout this manual are safety alert symbols that call attention to particular procedures. These items are used as follows:

DANGER
Indicates an imminently hazardous situation which, if not avoided, will result in a serious or fatal injury.

WARNING
Indicates a potentially hazardous situation which, if not avoided, could result in serious injury.

CAUTION
Indicates a potentially hazardous situation which, if not avoided, could result in minor or moderate injury. It may also be used to alert against unsafe practices.

EQUIPMENT ALERT
Indicates an imminently or potentially hazardous situation which, if not avoided, could result in serious to minor equipment damage.

NOTE
Amplifies an operating procedure, practice or condition.

Warranty Instructions

Refer to the Midmark "Limited Warranty" printed in the Installation and Operation Manual for warranty information. Failure to follow the guidelines listed below will void the warranty and/or render the dental casework unsafe for operation.

- Do not attempt to disassemble the dental casework, or replace malfunctioning or damaged components unless you are one of Midmark's authorized service technicians.
- Do not substitute parts of another manufacturer when replacing inoperative or damaged components. Use only Midmark replacement parts.

SECTION II
MODEL INFORMATION

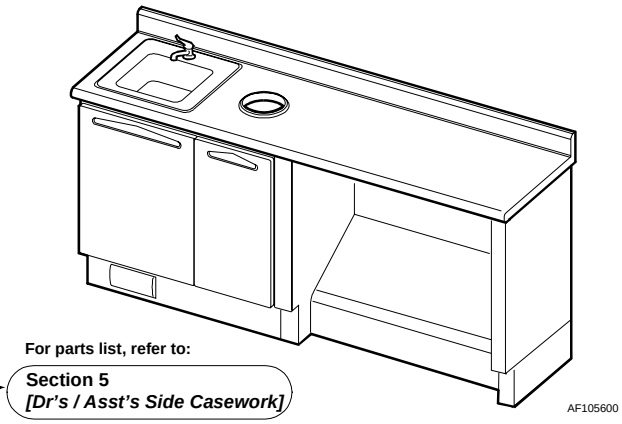
2.1 How To Use This Section

This section provides descriptions, model number information, and illustrations for identifying models of dental casework.

To find replacement parts information when the model is unknown, use this section as follows:

(1) Locate the desired model using the illustrations and descriptions in this section.

(2) The section of this manual containing the parts list is called out beside the illustration.



Example.

SINK CASEWORK

Models

Listed below are the descriptions and model numbers of the available versions of Multi-Operatory Sink Casework.

SECTION IV
DOORS, DRAWERS, & MISC.

4.1 How To Use This Section

Locate the page for the desired assembly (ex. *Door Assemblies w/Window*). Then follow the instructions on that page. In most cases it will be necessary measure the door / drawer panel to identify the correct part number.

This section contains exploded views of the doors, drawers, pull-out writing surfaces, & stand-alone accessories common to various models of Midmark Dental Casework.

NOTE
Special doors, drawers, etc. used exclusively on certain models are not included in this section. For these parts, refer to the section for that model (ex. Section VIII - *Freestanding Center Console*).

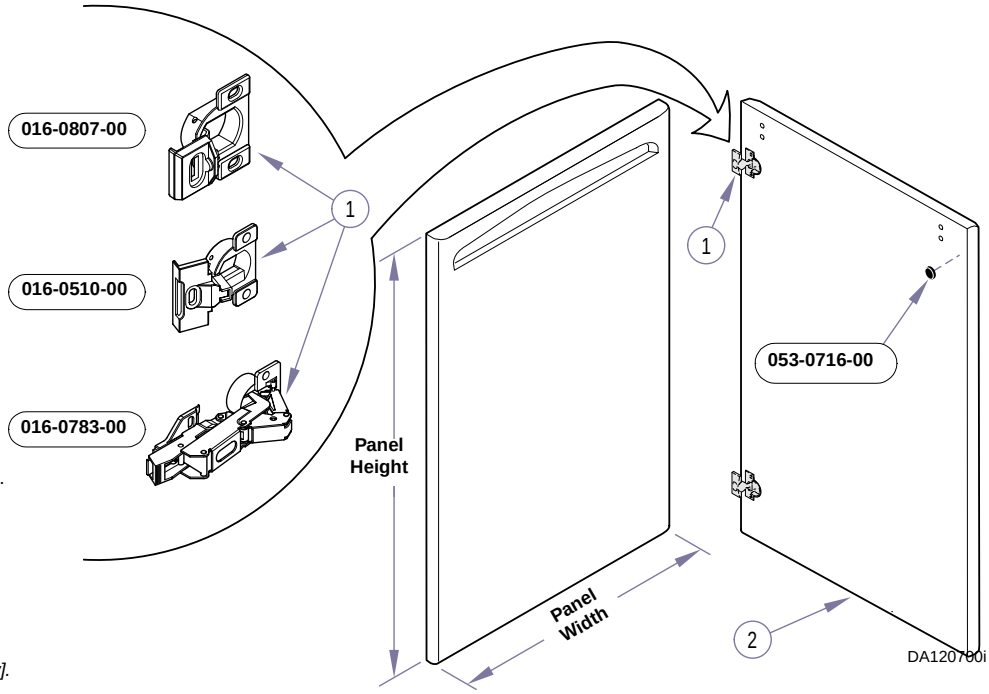
SOLID DOOR ASSEMBLIES



How to use this table...

1. Measure width & height of door panel.
2. Determine part number of door hinge **(#1)**. *[See hinge illustrations on this page]*
3. Determine hinge location.
4. Locate the properties of your door in the part number table.

[The part numbers for the complete door assembly and the door panel appear in that row].

Solid Doors

Panel Width	Panel Height	Door Hinge (Item #1)	Hinge Location	Door Panel (Item #2)	Door Assembly *(incl. all items shown)*

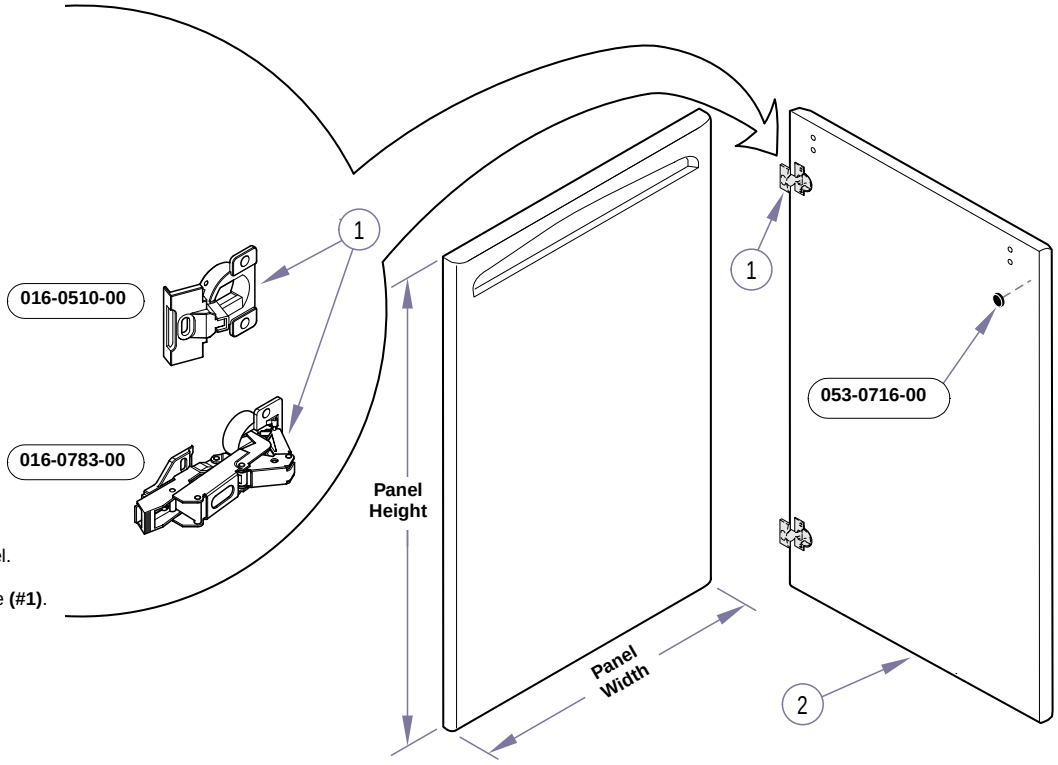
SOLID DOOR ASSEMBLIES *w/ LEAD LINED PANELS*



How to use this table...

1. Measure width & height of door panel.
2. Determine part number of door hinge **(#1)**. *[See hinge illustrations on this page]*
3. Determine hinge location.
4. Locate the properties of your door in the part number table.

[The part numbers for the complete door assembly and the door panel appear in that row].

SECTION V
DOCTOR'S / ASSISTANT'S SIDE CASEWORK

5.1 How To Use This Section

Locate the page for the desired section (ex. *Sink Section Components*). Find the part(s) in the illustration, then refer to the parts list to determine the part number and quantity required.

This section contains exploded views of Midmark's Doctor's / Assistant's Side Casework.

NOTE
Doors & drawers common to various models of Midmark casework are shown in Section IV *[Doors, Drawers, Misc.]* .

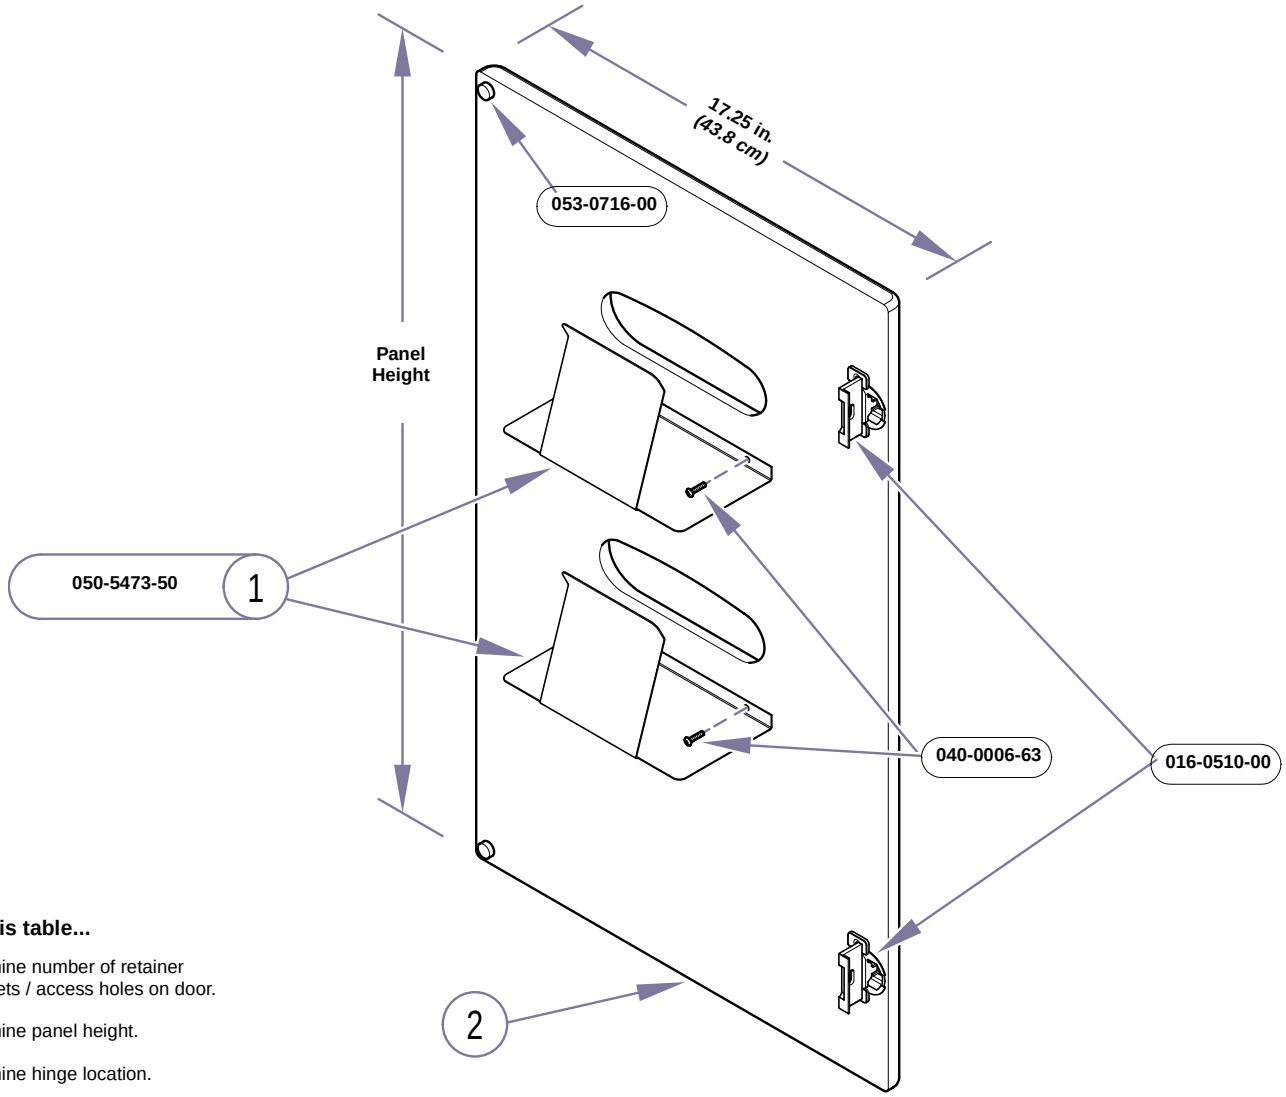
DISPENSER: *Door Assemblies*



DA121200i

How to use this table...

1. Determine number of retainer brackets / access holes on door.
2. Determine panel height.
3. Determine hinge location.
4. Locate the properties of your door in the part number table.

[The part numbers for the complete door assembly & door panel appear in that row].

Dispenser Door Components

Number of Retainer Brackets (Item #1)	Panel Height	Door Panel (Item #2)	Hinge Location	Door Assembly *(incl. all items shown)*

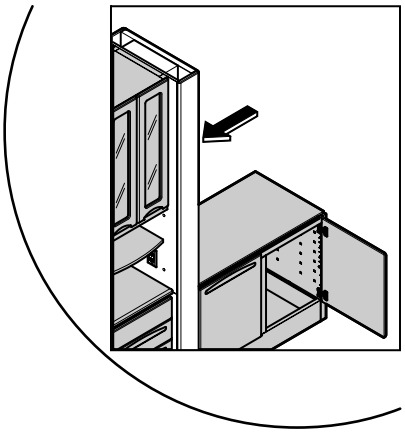
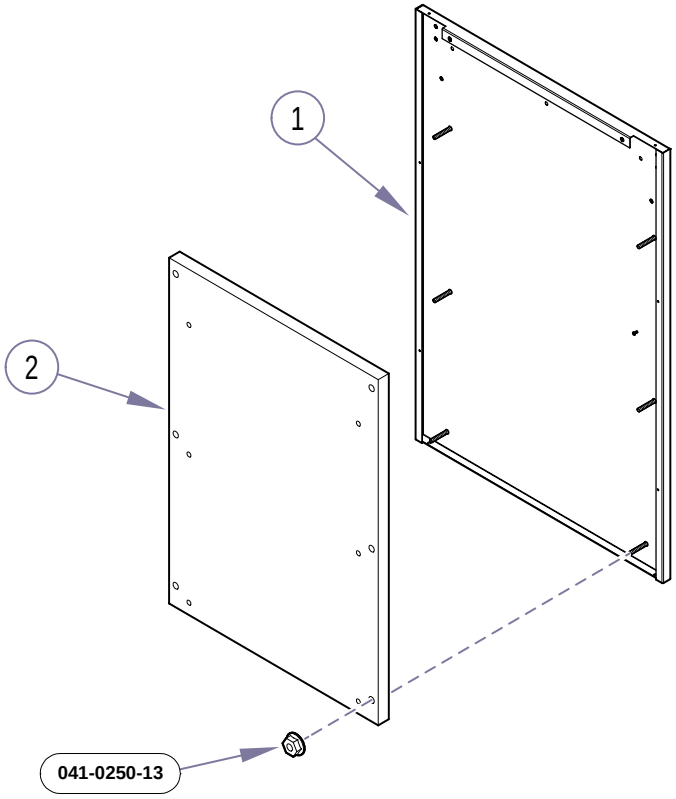
CENTER COLUMN: *X-Ray Panels & Mounting Boards*

NOTE
The panels and mounting boards have all holes necessary to mount the specific X-ray units. The panels shown *(w/ no mounting holes)* are used when no X-ray unit is required.





How to use this table...

1. Locate the manufacturer of the X-ray unit in the part number table below. Select *No X-ray unit* , for blank panel (no mtg. holes).

[The part numbers for the X-ray panel weldment & mounting board appear in that row].

DA125100i

How to use this table...

1. Measure the overall width & height of the Bi-Fold Door *(both door panels)*.
2. Determine the location of hinges **(#1)**.
2. Determine if the door is lead lined.
3. Locate the properties of your door in the part number table.

[The part numbers for the complete door assembly & both door panels appear in that row].
